Our Products

RUGGED MOBILE DEVICES

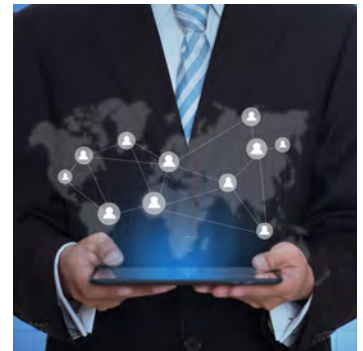

Get more use out of your mobile device than the 2-year lifespan of a typical device. Ideal for use in industrial and military markets, our smartphones and tablets are built with industrial environments in mind. These devices meet military standards for shock & vibration, limited water submersion and dust ingress. Available in a range of colors, styles and models. [READ MORE](#)

- IP Rated
- MIL STD 810G
- NFC Functions
- OS Options
- High Def Imaging

TABLET PRODUCTS

Boost performance, communication and time management by implementing mobile tablets into your business processes. Lightweight or ruggedized, AGDisplays offers a range of off the shelf tablet devices to improve information resourcing and collaboration between teams.

Tablets allow for intuitive management operations at your fingertips with limitless mobile applications compatible with today's best software. AGDisplays makes commercial off the shelf tablets easy to purchase with flexible spec options and easy purchasing. [READ MORE](#)

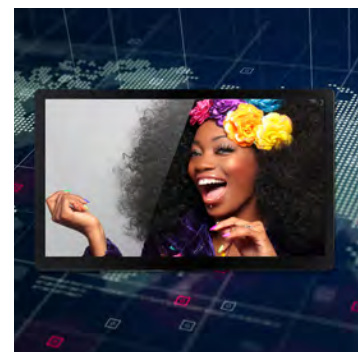

TOUCHSCREEN DISPLAYS

View our selection of the most reliable touch displays on the market. We offer resistive, projected capacitive, surface capacitive, SAW and IR touchscreens in a huge size range. Our displays are able to be integrated into applications like digital catalogs, menu board, and advertisement displays. These products offer solutions for a user interface in many industries where users need to control, monitor and manage processes is critical to design. Our panels are eligible for performance upgrades like ruggedization, optical bonds and EMI protection. [READ MORE](#)

SMALL-MEDIUM-LARGE DISPLAYS

AGDisplays leads the way in offering an extensive range of LCD panels for integration into your design project. Our displays are ideal for the Medical, Marine, Transportation, Manufacturing and Finance as well as branches of the US Military.

Our displays are ideal for integration into new or existing designs as well as LCD replacement upgrades. From small to large sizes, all of our LCDs are eligible for our signature LCD solutions that maximize standard performance in any environment. [SMALL](#) | [MEDIUM](#) | [LARGE](#)

Our Services

MEDICAL DISPLAYS

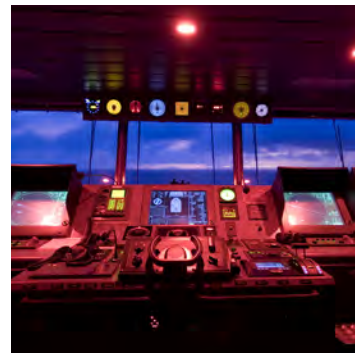

AGDisplays works with contract manufacturing & product development companies to transition projects from design to manufacturing. We bring our partners' ideal solution to life with design and manufacturing expertise.

Our turnkey medical monitors selection gives your team a global reach in supply chain. Our line of medical displays are off the shelf, and we integrate value added performance solutions right here in Pennsylvania. Featuring stable, high bright display readability and sharp contrast, our LCD technology is sure to support accurate medical image diagnoses. [READ MORE](#)

MARINE DISPLAYS

With advancing technology, AGDisplays premieres IPS-LCDs featuring clearer and brighter screens with wider viewability for a better boating experience. These LCDs are built with a rugged chassis to prevent ingress of dirt, mud, water or other contaminants. Some panels feature an optically bonded LCD/coverglass to further prevent moisture and condensation on the LCD screen. Our marine displays are protected and designed specifically for use in all marine/boating applications.

DIGITAL SIGNAGE

Digital signage has taken over advertising in almost every restaurant and brick and mortar store. The way advertising is digested by consumers is quickly changing from traditional print to attention-grabbing digital media.

Digital Signage is a stunning and valuable solution for companies looking to stay relevant while prioritizing ease of use and brand awareness. Digital signage offers fast on-sight installation and easy access for maintenance & repairs. The platform itself lends itself to cost effective content recycling & renewal. [READ MORE](#)

PANEL MOUNT DISPLAYS

Find a variety of panel mount displays that's the right fit for your project. Our selection of panel mount displays were designed for industrial workstations. LCD panels are designed for end-user quality and reliable, long term operation. Work with AGDisplays to determine which panel mount display fits best for your unique design.

All our LCD products are eligible for performance-enhancing upgrades. To learn more about our ruggedization, touchscreen integration, NVIS filtering or other custom upgrades, speak to an AGD representative. [READ MORE](#)

Our Services

TOUCHTABLE DISPLAYS

Impress customers and partners with highly useful and interactive touchtables. Hold meetings and communicate business messages as well as publish effective advertising. With superior viewing angles and sensitive touch technology, our touchtables create an opportunity for intuitive and engaging tasks.

Touchable technology is expanding in the commercial markets. They're being used in applications such as showrooms, bars, waiting rooms and more. With touchtable technology, users perform tasks faster and with fewer errors. Enhance the customer journey with your brand with a touchtable in your venue! [READ MORE](#)

MULTIMEDIA KIOSKS

Increase your customer base and improve buying experience with touchscreen tables, multi-media kiosks and digital signage. Strategic kiosk placement and attractive advertisement will bring customers to you, increasing overall product exposure.

Communicate message and alerts to team members, tourists or guests with public message boards; decrease wait time with self check in terminals. With limitless applications, AGDisplays offers a wide range of kiosks, smart tables and digital signage to effectively reach your customer. Find the right product for your business today! - Glasses Free 3D Displays
- Bus Digital Displays
- LCD Interactive Whiteboards

VIDEO WALL PRODUCTS

AGDisplays uses a meticulous objective visual verification process to ensure your quality standards are met and that LCD pixel defects are not present in your products. We receive panels from the OEM before they reach the customer and we verify that your zero-pixel specifications are being met. If the panel fails OEM specification grade, we perform an exchange for panels that are standard or above standard for your industry. We inspect panels for hot, stuck dead pixel and evaluate LCD quality standards. We confirm and document our findings for verification purposes. AGDisplays employs a comprehensive training program so your units are in the hands of Technicians who expertly handle units like yours every day. [READ MORE](#)

Over the last decade, AGDisplays has taken great pride in providing unique LCD solutions for each of our customers. We feature an extensive range of custom panel solutions that improve standard display attributes while maximizing performance in any environment. We've performed thousands of LCD integrations and designs in the last decade.

Whether we are met with a new design or challenged with improving an existing design, AGDisplays supports your team by delivering unparalleled LCD expertise and technology. AGD partners benefit from our efficient design process and our dedication to creating quality design solutions.

AGDisplays values working closely with your team to ensure a high-value, high-quality design solution to create a smooth transition from design concepts to high volume production. We support your teams with the knowledge & expertise needed to make the strategic design and manufacturing decisions. Our 124,000 sq ft facility is below capacity with expansion space available for future growth potential. To learn more information about each of our services, [click here](#).

We saw the need for off the shelf products, so we've added an expansive line of open/closed frame LCDs, digital signage, and all-in-one products. We offer unique LCD products like advanced touchscreen tabletops, high quality medical displays, and rugged mobile devices. All of which are eligible for value-add integration services. Our products are used across many industries including Military, Avionics, Marine, Industrial, Medical and Transportation and many more.
